sycamore_2m_account_values.csv (F01CVQBPAUB)10/19/2020, 1:45 PM
here are the latest sycamore/juniper hourlylies

10/19/2020, 1:45 PM

juniper is up 0.8% and sycamore is unfortunately down 6.1%

10/19/2020, 1:46 PM

so combined MTD is down about 2.6%

10/19/2020, 1:46 PM

- Antonio (UG8GA6NGK)A

ok great

10/19/2020, 1:47 PM

what is your interpretation of the causes of the sycamore dd?

10/19/2020, 1:48 PM

- Max Bodoia (UGDH4TLFQ)MB

i'm not sure at the moment

10/19/2020, 1:49 PM

my guess is that its a combination of stagnant market (so not many reversion opportunities) and a few coins which have strongly diverged from the pack for idiosyncratic reasons (e.g. XLM this week)

10/19/2020, 1:50 PM

but i'll need to check the pair-by-pair returns to be sure
